

# Parkinson's Recovery Jump Start Program

San Diego, CA

October 18 - 20, 2010

## Jump Start to Wellness

Parkinson's Recovery is pleased to bring the widely successful Jump Start to Wellness program to San Diego, CA, in October 2010.

Spend two days and one evening at Jump Start to Wellness. Believe me when I say there is no other experience like it anywhere in the world. The Jump Start to Wellness program demonstrates the many ways that persons with Parkinson's get relief from their symptoms. We also provide detailed instruction on how you can replace any and all thought patterns & medications that are no longer serving your highest good with new self administered healing techniques that can bring your body back into balance.

The main focus of the program is not about convincing you to buy a program or purchase a product. It is all about helping you to help yourself recover. You are the one who heals. We just help facilitate the process.

This program is open to everyone with the symptoms of Parkinson's, their families, & anyone that supports them. So please share this info with everyone that you know that can benefit from attending this wonderful program.

Please contact Kurt "Truky" Robertson before **Friday October 17th** for more info & to secure your reservation. This will be time & money very well spent.

*Bahia Resort Hotel, Mission Bay, San Diego, CA.*
